

SPRING GEMS

Spring calls for sunshine and outdoors. Here, we feature some spring musts for a flawless season.

By Samantha Boden

KEEPING UP WITH KALE

Superfood and salad-must kale is now making its way into beauty products. **Nip + Fab's** Kale Fix skin-care range (ulta.com) is loaded with leafy greens. The kale extract repairs tissue underneath the skin, leaving a youthful glow. The Kale Fix Clay Mask (\$13) hydrates the skin, Kale Fix Moisturizer (\$20) softens and comforts dry skin, and Kale Fix Makeup Removing Pads (\$13) gently cleanse. Hungarian beauty brand, **Éminence Organics**, is known for hand-picked and mixed ingredients. The Citrus & Kale Potent C+E Serum is fast-absorbing, suitable for all skin types, and improves the overall appearance of skin (\$110, buynaturalskincare.com). Cover up imperfections with **Alba Botanica's** Good & Healthy Tinted Perfector Moisturizer. The kale, spinach, and swiss chard blend nourishes skin and makes imperfections disappear (\$8, iherb.com).

HOOLA HAPPY

This March, **Benefit Cosmetics** best-selling prestige bronzer, **Hoola Matte Bronzer Powder** (\$29) is growing its healthy-glow family. The cult favorite is adding a soft matte liquid bronzer, **Dew the Hoola** (\$28), a body bronzer, **Hoola Zero Tanlines** (\$30), and **Hoola Bronzing and Contouring Brush** (\$24). Visit benefitcosmetics.com.

Nails INC Paint Can Spray

What is it: A spray-on nail polish.

What it does: The spray can applicator puts on polish evenly in just seconds. And lacquer dries super quick!

Where to find it: \$12, nailsinc.com, (March 2016)

Elizabeth Arden's Grand Entrance Mascara uses precision brush technology to deliver an 80 percent increase in lash length and volume and 162 percent increase in curl. With this mascara in hand, you'll make a grand entrance wherever you go (\$24, elizabetharden.com).

Getting a fresh hairdo only to have it ruined by some zzz's is frustrating. The firm and comfy **Lifestyle Pillows Hair Pillow** prevents locks from getting messy. The pillow's design keeps hair perfect, no matter your sleep position (\$65, lifestylepillows.com).

Caudalie's Make-Up Removing Cleansing Oil soothes and hydrates while removing dirt and bacteria. This silicon and preservative-free, non-greasy oil even removes the most stubborn makeup. Key ingredients like sweet almond and sunflower seed oil give it a delicious aroma, too (\$28, sephora.com).

TEETH CARE

The first thing people notice about you? Your smile. Taking care of your teeth is vital, but it's hard to come by good products. Dr. Michael Apa, a leading cosmetic dentist, created the first line of professional dental products for at-home use. **Apa Beauty** offers simple, effective oral care and beauty products that enhance your smile and fit into your daily beauty routine. The line consists of a **Tooth Gloss** (\$28) to lighten up your pearly whites; a **Blue Lip Shine** (\$25) to give your smile an immediate whitening boost; a **Lip Loofah** (\$18) to scrub away dull skin and moisturize; and a professional at-home whitening system with results in five days, **White Duo** (\$150). Launching in spring 2016 is a sleek vanity to house these pearly white wonders via a collaboration with design guru Jonathan Adler. Visit apabeauty.com.

WORLDWIDE WONDERS

Spa treatments from around the world have made their way across the Atlantic. **The Spa at Trump SoHo** in New York offers a Moroccan ritual using Moroccan oil beauty products. The spa is home to the first traditional hammam (a turkish bath) in NYC. The intense, head to toe Moroccan Ritual Treatment uses argan oil-infused products that will leave you soft and refreshed (\$230, trumpsophotel.com). Head over to the **Guerlain Spa at the Waldorf Astoria** in New York for the **Beauty Lift Facial**. It's unlike any other facial and uses the Guerlain Méthode technology from Paris. Facial muscles are stretched and stimulated, restoring volume and density to the face immediately. Think a workout for the face and an instant youth booster (\$250, guerlainspas.com).

Wearing lipstick in the sun intensifies UV rays, so sunscreen powerhouse **Supergoop's** new Shine on Lip Screen SPF 50 turns your favorite shade into... shade! This non-sticky lip screen has grape seed extract to protect against rays (\$22, supergoop.com).

Ideal for busy millennials, **Clarins** Multi-Active Day and Night Cream wards off the toll of time. This skin-protecting duo fights against early signs of fine lines and wrinkles due to pollution, sleepless nights, UV rays, and daily stress leaving skin smooth, glowing, and moisturized. Day cream comes in four options, and the night cream comes in two (\$53, \$56, clarinsusa.com).

A woman's hands are the first sign of aging. The **Hand MD Restorative Duo** is an anti-aging treatment for the hands that rejuvenates and repairs aging mitts. This powerful duo consists of a serum and antioxidant-rich moisturizer (\$50, hand-md.com).
